Ms. Emel Hadzipasic  
Senior Planner  
Harbor Planning and Development  
Boston Redevelopment Authority  
One City Hall Square  
Boston, MA 02201

Dear Ms. Hadzipasic:

We are pleased to submit this package which expresses our interest in the Harborwalk, Phase I, Signage System. We feel that the team that we have assembled is highly qualified and creative.

Our team consists of two graphic design firms with significant experience in projects related directly related to urban signage, a respected architectural firm, and a civil and structural engineering firm.

We feel that our team has all the necessary ingredients to be short-listed and ultimately to successfully and creatively execute this project.

Sincerely,

A handwritten signature in cursive script, appearing to read "Eadwine Abrams".

Eadwine Abrams

## INTRODUCTION

This submission is a joint venture between Abrams Design, Bonita Graphics and Stull and Lee. We are retaining Greiner, Inc. as a sub-consultant. We feel that this team offers the broad range of experience and disciplines needed to complete the Harborwalk signage program successfully. Questions should be addressed to Mr. Eadwine Abrams of Abrams Design.

## DESCRIPTION OF FIRMS

### Abrams Design

Abrams Design is a two person graphic design firm founded in 1988 and located in Cambridge, Massachusetts. Mr. Eadwine Abrams is the founder and president of the firm. Prior to founding the firm he was an associate with Herman and Lees Associates, a leading international graphic design firm. He has executed a large number of major corporate identity and signage programs for national, international and local clients. (see biographical sketch for more detailed information) In its first 10 months Abrams Design has been very successful, executing projects for CIGA HOTELS, Polaroid, State Street Bank, New England Medical Center and National Fire Protection Association.

### Stull and Lee

Stull and Lee, Inc. is recognized as one of the foremost architecture and urban design firms in the United States. Since its establishment in 1966 the firm has grown from a small group of designers concentrated in housing design to a multi-disciplinary staff of urban designers, planners and architects. The firm has produced master plans for downtown areas, neighborhoods, industrial parks, housing developments, transit stations and colleges. Architectural work has included education facilities, office buildings, industrial buildings, cultural facilities, community centers, transit stations and parking garages, as well as multi-family housing.

In addition to numerous regional and national design awards presented by the American Institute of Architecture, the office has been cited for its work on the Southwest Corridor Project by the Institute for Urban Design and the Mass. Council on the Arts. Several projects have

also appeared in professional publications, including Progressive Architecture, Architectural Forum, Architectural Record, Urban Design Magazine, AU (Japan), Baumeister (Germany), L'Industria Belle Construzioni (Italy) and Newsweek.

Since its inception the Stull and Lee office has worked extensively with both public and private clients. A fundamental concept of our practice has been a close working relationship with neighborhood groups and public agencies. Our commitment to citizen participation leads to an appreciation of the unique nature of each project area and to design solutions that are generated with communities rather than imposed upon them.

Stull and Lee is a minority owned firm. Its staff is 38% minority and 32% female. We are comfortable working within an inter-disciplinary team structure. The firm's design and technical abilities are complemented by our ability to complete projects on schedule. The personnel assigned to this project have the significant experience in their job areas and are capable of meeting the standards of excellence required.

#### Greiner, Inc.

Greiner, Inc. is a multi-disciplinary professional services organization providing comprehensive design and project management services in the disciplines of Architecture, Engineering, Planning, Surveying and Mapping, Energy, Environmental Sciences and Facilities Management. Greiner employs more than 1,200 professional and support personnel in 35 cities throughout the U.S. and abroad. Greiner has significant experience in Transportation, Land Development and Historic Preservation projects and has successfully worked with many public agencies in the past.

## Bonita Graphics

Bonita Graphics is a woman owned design firm located in Cambridge, Massachusetts. Ms. Rieser is the founder and president of the firm. The firm specializes in promotional literature, financial communications, annual reports, and architectural signage. Since its inception in 1985 Bonita Graphics has worked with a diverse range of public and private clients including MHFA, CDFC(annual report), EDIC, BSSC(promotional literature), State Street Bank(interior sign standards), and Fidelity Investments(direct mail). The philosophy of Bonita Graphics incorporates an eagerness to innovate while accurately reflecting the client's identity.

## RELEVANT PAST EXPERIENCE

### Abrams Design

#### Introduction:

Mr. Eadwine Abrams, the founder and president of Abrams Design has had a significant amount of experience in developing major signage programs for governmental agencies, major multinational corporations and educational institutions. Prior to founding Abrams Design in 1988, he was an associate at Herman and Lees Associates, where he spent over five years working on a large variety of corporate communications, corporate identity and signage programs.

#### City of Norfolk, Virginia Downtown Signage System 1985-1986

Mr. Abrams was senior project designer for this project. (at Herman and Lees Associates) The scope of the project was to develop a coordinated automobile and pedestrian signage system for the entire downtown area of Norfolk, Virginia. Sign types included were gateways to the downtown area, automobile directional signs, parking lot identification, major public facility identification, historic interpretive signs, street name signs and pedestrian directional signs. After acceptance of the schematics, a sign standards manual was produced to assure consistent implementation.

#### City of Lowell, Massachusetts Downtown Signage System 1988

Mr. Abrams was senior project designer for this project. The scope of this project was very similar to the Norfolk signage system. The assignment was to design a signage system to aid automobile and pedestrian orientation, while expressing the specific historic character of the city. The project was developed for the Division of Planning and Development and was subject to review by various other agencies including the Northern Middlesex Area Commission and the National Park Service. The project is currently in the construction documentation phase.

Abrams Design  
(continued)

CIGA HOTELS Corporate Identity/  
CIGA WEEKEND AT LONGCHAMP  
1987-1988

Subsequent to leaving Herman and Lees, Mr. Abrams was hired back (as a consultant) to execute the CIGA HOTELS corporate identity and the CIGA WEEKEND at LONGCHAMP project as follows:

A. CIGA HOTELS Corporate Identity

The assignment was to develop a corporate identity program for CIGA HOTELS, an international hotel group based in Milan, Italy. The scope included developing a corporate signature, graphic standards for all corporate material, signatures for each hotel, graphic standards for all marketing material and guest amenities, as well as graphic standards for all signage. A graphic standards manual is currently being executed.

B. CIGA WEEKEND AT LONGCHAMP

The assignment for this project was to develop supporting graphics for the CIGA HOTELS sponsorship of the Prix de l'Arc de Triomphe (the most prestigious horse race in Europe) and all other races of that weekend. (Approximately 20)

Mr. Abrams worked with Herman and Lees to design and execute all graphic support material for the sponsorship. This consisted of an extraordinary array of materials including advertising, public relations support material, a marketing brochure, racing programs, product design, trophies and signage.

For both the CIGA HOTELS corporate identity and the CIGA WEEKEND, Mr. Abrams travelled to Europe several times. He was responsible for meeting with executives of CIGA, representatives from the Société d'Encouragement (the managing group of the Longchamp race course), hotel managers, as well as supervising vendors to maintain quality control.

Abrams Design  
(continued)

IBM  
Preston Hill Office Park Signage  
Southington, CT  
1988

Mr. Abrams was the senior project designer (at Herman and Lees) for this project. The assignment was to develop an identity and coordinated signage for a commercial real estate development in Connecticut. Mr. Abrams role consisted of meeting with IBM managers, design development and construction documentation.

Minuteman Regional Vocational Technical  
High School  
Interior and Exterior Signage System  
Lexington, MA  
1986

This was Mr. Abrams' first freelance signage project. The assignment was to develop a signage system for a 500,000 s.f. educational facility and its surrounding network of roads and parking lots. The interior system included directional, identification and orientation signs. The exterior system included traffic directional, parking identification and public facility identification.

Bonita Graphics

Introduction:  
Ms. Bonnie Rieser, the founder and president of Bonita Graphics has managed her graphic design firm for the past three years. Her firm has executed work for numerous state agencies, including MHFA, EDIC, CDFC and Massport. Bonita Graphics' strength is a multi-disciplinary approach encompassing corporate identity, print graphics and signage.

State Street Bank and Trust Company  
Signage System  
1988

Bonita Graphics (with Abrams Design as a consultant) designed and executed a signage system for all State Street corporate offices. Bonita Graphics developed standards for all sign types including directional, facility identification and building and floor directories. Bonita Graphics also provided design management services to State Street, by setting up an internal

Bonita Graphic  
(continued)

structure for managing signage. The signage system is currently being implemented throughout all State Street corporate offices.

Dolben Library Sign System  
Northfield Mount Hermon School  
Northfield, MA  
1987

Bonita Graphics (with Abrams Design as a consultant) was commissioned by ARC Cambridge, an award winning architecture firm, to design a sign system for the new Dolben Library at Northfield Mount Hermon School. The assignment was to design a system to orient and inform visitors and users of the library, while integrating with the architectural vocabulary. The sign types designed and produced included a building directory, directional signs, office and facility identification, donor plaques and stack identification signs. The finished building was recently featured in Architectural Record.

Greiner, Inc.

Saab-Scania of America, Inc.  
North American Operations headquarters  
Meriden, CT

Greiner was responsible for the development of Saab-Scania's new North American Operations Headquarters, a campus style development in central Connecticut.

The initial task involved programming Saab-Scania's facility needs projected for the next five years. Based upon the results of this programming effort and other selection criteria, several sites were reviewed and ranked. The final selection was the 163 acre site Meriden. The site offered high visibility and excellent access to ground and air transportation. The next task was to work together with Saab-Scania and the City Planning and Zoning Commission to effect the necessary zone change that would permit the construction of the new campus.

Given Saab-Scania's urgent need to occupy the first phase of the planned Parts & Accessories Distribution Center, Greiner worked with the City of Meriden in the development of new zoning regulations, prepared the campus master plan, designed the distribution facility, and prepared

Greiner, Inc.  
(continued)

construction documents simultaneously.

Through this fast track process, Saab-Scania received construction bids two weeks prior to the zone change approval, broke ground just a few weeks later, and occupied the first phase (144,000s.f.) of the Parts and Accessories Distribution Center on the accelerated schedule.

#### North Shore Transit Improvements Project Boston, MA

Greiner managed the technical study as well as subsequent design for a long and involved series of improvements and extension to Boston's rapid and commuter rail service to the North Shore.

Initially, the Blue Line Rapid Transit was to be extended to Lynn, which was served by commuter rail. After in-depth Alternative Analysis and Draft Environmental Impact Statement was circulated, UMTA re-assessed their funding of a seemingly duplicate service and revised the project.

The current project involves modernization of the Revere Beach and Wonderland Stations on the Blue Line, construction of a joint commuter/commercial six level parking garage with associated station modifications at Central Square-Lynn on the Eastern Route commuter rail line, and relocation of the Salem Station also on the Eastern Route. As part of a joint venture, Greiner held responsibility for project management of a project team that included subconsultants. A total of 11 supplemental and two additional agreements have revised the scope of work from feasibility and environmental impact analyses and preliminary market and demand forecasting analysis of travel patterns to development of conceptual design and cost estimates for the four stations as well as final design for Revere Beach and Wonderland stations.

Jackson Ward Vision 2000  
Richmond, Virginia

For Jackson Ward, an historic section of downtown Richmond, Virginia, Stull and Lee expeditiously produced a master plan for open space, housing and commercial development. In preparing the master plan, Stull and Lee, conducted community workshops and worked closely with a team of nationally prominent real estate developers. The final product included plan diagrams, illustrative master plan, illustrative perspective, slide show presentation and report.

Newmarket Industrial District  
Boston, MA

The Newmarket area is one of Boston's oldest and most concentrated industrial districts. Stull and Lee prepared a master plan with the objective of returning to prominence this aging section of the city. Through strategic public interventions, the plan seeks to create an attractive light manufacturing district as a prototype for urban industrial redevelopment.

Highland Park Plan  
Boston, MA

Highland Park is a striking neighborhood of dramatic topography and historic architecture but population shifts and economic disinvestment threatened this once splendid area.

Stull and Lee, prepared a master plan which proposed new and renovated housing, shopping facilities and parks. A key component of the plan was the siting of the recently completed Roxbury Community College. Today Highland Park is one of Boston's most desirable neighborhoods.

Southwest Corridor Project  
Boston, MA

The Southwest Corridor Project is an urban mass transportation project running 4.7 miles through the City of Boston.

As part of a multi-disciplinary team Stull and

Stull and Lee  
(continued)

Lee designed and detailed the full range of standard operational components, coordinating their design with engineering aspects of the project and supervising their construction.

#### KEY PERSONNEL

Organization of  
Project Team

Eadwine Abrams, president of Abrams Design, Bonnie Rieser, president of Bonita Graphics and M. David Lee, vice president of Stull and Lee will be the principals in charge of the project. Greiner, Inc. will be a sub-consultant.

Support Personnel

Abrams Design:  
Elisée La Brecque, Project Designer

Stull and Lee:  
Charles Perez, Project Principal  
Etty Padmodipoetro, Associate/Urban Designer  
Virginia Guest Ferriday, AIA, Urban Designer  
Theodore Trent Green, Urban Designer

Greiner, Inc:

Robert M. Fitzgerald, P.E. Regional Manager

#### RESUME BRIEFS

Eadwine Abrams

Mr. Abrams is a graphic design and corporate identity consultant. He graduated from Rochester Institute of Technology in 1982 with a bachelor of fine arts in graphic design.

Mr. Abrams is the founder and president of Abrams Design. The firm specializes in corporate identity, corporate communications and signage. Clients of Abrams Design include Polaroid Corporation, New England Medical Center and National Fire Protection Association.

Prior to founding the firm he was an associate with Herman and Lees Associates, a leading international graphic design firm. While at Herman and Lees Associates, he travelled nationally and to Europe to execute a wide range of projects for major multi-national corporations (including IBM and CIGA HOTELS), leading international institutions (including institutions of His Highness the Aga Khan), municipalities, airlines, as well as a variety of local organizations.

David Lee, AIA

Mr. Lee is Vice President of Stull and Lee.  
He specializes in Architecture and Urban Planning.

Education:

University of Illinois  
Bachelor of Architecture, 1967

Harvard Graduate School of Design  
Master of Architecture, Urban Design, 1971

Registration: Massachusetts

Professional Experience:

As Vice-President of Stull and Lee, Inc.,  
Mr. Lee is involved in a broad range of planning,  
urban design and architectural projects. He  
served as Principal-in-Charge of urban design  
for Boston's award winning Southwest Corridor  
Transit Project, for the Kaehler Primary  
Health Care Center for the U. S. Coast Guard  
(Falmouth, Mass.), the Chad Brown/Admiral  
Terrace master plan and housing renovations  
(Providence, Rhode Island), and the Poinciana  
Industrial Park plan (Miami, Florida).

Teaching Experiences:

Adjunct Professor, Rhode Island School of Design,  
1972

Assistant Professor, MIT Department of  
Architecture and Planning, 1974-1983

Consulting Critic, Harvard GSD, Urban Design  
Program, 1980

Visiting Design Critic, Harvard GSD, 1988

Visiting Lecturer and Studio Juror: Columbia,  
Harvard, Yale, Pennsylvania, MIT, Texas Southern  
University, Hampton Institute, the University of  
Rhode Island, Southern University and the  
University of Havana.

Mr. Lee has received numerous awards, including  
the Harvard Graduate School of Design Scholarship,  
the John Hay Whitney Fellow, Whitney Foundation,  
N.Y., and the Outstanding Young Men of America.  
He has also served on numerous boards, including  
the American Institute of Architects and the  
Boston Society of Architects.

Robert M.  
Fitzgerald

Education:

AS, Civil Engineering, 1961, Northeastern Univ.  
MBA, Business Administration, currently  
enrolled, University of Massachusetts  
Flood Plain Hydraulics, 1977, University of  
Texas  
Railroad Track Design, 1978, Northeastern  
University  
Air Quality Seminar, 1971, Enviromental  
Protection Agency

Registration:

Registered Professional Engineer

Affiliations:

American Society of Civil Engineers

Experience includes the following:

- Extensive experience in the study, design, coordination, and management of various transportation and storm water control projects including roadways, highways, bridges, and transit facilities, as well as HUD Flood Insurance studies.
- Officer-in-charge of the \$14 million reconstruction of historic Harvard Bridge, requiring a 2,200 foot duplicate structure over the Charles River; Boston, MA.
- Project Engineer responsible for the study of the Massachusetts Bay Transit Authority's Orange Line North in Melrose, Wakefield, and Reading. The study involved evaluation of transportation modes, commuter rail, light rail vehicles, busways, and improved roadway network.

Elisée La Brecque    Elisee La Brecque is a graphic designer with experience in corporate identity, corporate communications and signage. She graduated from Rochester Institute of Technology with a bachelor of fine arts in graphic design.

Ms. La Brecque is currently a partner in Abrams Dēsign. She is responsible for design development and project management of a wide range of graphic design projects for the firm.

Prior to joining Abrams Design she was employed by Earl R. Flansburgh + Associates in Boston, where she was a member of a graphic design team within the interdisciplinary architecture firm. She was responsible for projects including corporate identity and signage for museums, schools, and corporations.

Etty  
Padmodipoetro

Etty Padmodipoetro is an Associate with Stull and Lee. She specializes in Architecture and Urban Planning.

Education:

University of Minnesota, Bachelor of Architecture, 1979

Registration:

Massachusetts, 1985

Professional Experience:

As an urban designer with Stull and Lee, Ms. Padmodipoetro served as Project Manager for the West End Neighborhood Revitalization Project, Providence, RI, the Poiciana Industrial Park Plan, Dade County, FL, and participated in the Boston Arena Feasability Study, Boston, MA.

Ms. Padmodipoetro was the project urban designer for a study of enterprise zone improvements at the South Norwalk Railroad Station in Connecticut. She recently served as principal urban designer for the Newmarket Industrial Park Plan in Boston.

Teaching Experience:

Guest Lecturer, Harvard University, Linguistics Dept.  
Guest Studio Critic, MIT, Aga Khan Program for  
Islamic Architecture, Fall 1987

Bonnie Rieser

Bonnie Rieser is a visual communications specialist. She is a 1978 graduate of Kenyon College, where she earned a Bachelor of Arts degree, Cum Laude, with a double major in fine arts and philosophy. Her junior year was spent studying Japanese Art in Tokyo. She also attended Boston University Graduate School of Graphic Design, where she graduated with a master of fine arts in 1985. While at B.U. she was the art director of a full service design office for two years.

Ms. Rieser is the founder and president of Bonita Graphics. The firm specializes in promotional literature, financial communications, annual reports, and architectural signage. Her clients include State Street Bank (interior signage standards), Fidelity Investments (direct mail), Massachusetts Housing Finance Agency (annual report), Ben Elfman and Son's (advertising; annual budget is \$750,000-\$1,000,000).

#### APPROACH

We propose that our effort be divided into four phases. Phase I, Research and Analysis; Phase II, Preliminary Design; Phase III, Final Design; Phase IV, Construction Documents and Production Supervision.

##### Phase I: Research

We would begin with a thorough study of issues relevant to the Harborwalk project. We would attempt to meet with all persons who would be reviewing our proposals, so as to familiarize ourselves with all parameters of the project. We would conduct thorough site reviews of all areas affected by Harborwalk and make a systematic photographic record. We would also obtain and familiarize ourselves with the master plan material relevant to this project.

##### Phase II: Preliminary Design

We will produce four schematics of each element of the signage system. We will execute this phase as outlined in the Scope of Services of the RFQ. We will work with the BRA to obtain all necessary approvals from all appropriate agencies. During this phase we will begin to prepare a detailed sign program showing locations

and message content of all signs.

### Phase III: Final Design

Following presentations to all relevant persons, we would make any changes necessary for final approval and resubmit until final approvals are obtained.

### Phase IV: Construction Documentation and Production Supervision

Following approval of all sign types, we will prepare contract documents for the fabrication and installation of each item. Construction Documents will include drawings and specifications for each sign type, layouts of each sign face, site plans indicating the location of each sign and a sign schedule keying each sign to a site location, sign face and structural drawing.

Following the selection of the contractor(s) we will attend a post-bid conference. We will inspect prototypes of work-in-progress and we will supervise the installation of all items.

At the completion of installation, we will prepare a punch list of all signing deficiencies.

### PROJECT SCHEDULE

Phase I.....	4 weeks
Phase II.....	8 weeks
Phase III.....	2 weeks
Phase IV.....	10 weeks

DEMONSTRATION OF THE ABILITY TO  
EXPEDITOUSLY COMPLETE THE PROPOSED  
SCOPE OF SERVICES

1. CIGA WEEKEND AT LONGCHAMP

This project began in March 1988. There were no pre-existing graphic materials at that time. The scope of services was outlined by the client in a 45 page memorandum. Mr. Abrams with a team including the principal-in-charge and three support designers, as well as a team in Europe including CIGA management, printers, typographers, and sign manufacturers, executed the entire program by October 1, 1988. The scope of the project was enormous and the trans-Atlantic logistics difficult. It included the design and production of advertising, brochures, programs, products, and large scale environmental graphics.

2. SAAB-SCANIA OF AMERICA, INC.

Refer to project description under Greiner, Inc.

3. MHFA ANNUAL REPORT (92 pages)

"All of the critical and tight deadlines were met. Bonita Graphics responded quickly and accurately to our needs."

-Terry Pepin  
MHFA

4. EDIC (Financial Services Brochure)

"Bonita Graphics' work was successful on every level...the brochure was produced on time and within budget."

-Jim Hight  
EDIC

10. Use this space to provide any additional information or description of resources (including any computer design capabilities) supporting your firm's qualifications for the proposed project.

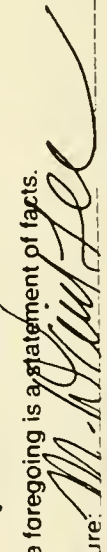

Stull and Lee, Inc. is recognized as one of the foremost architecture and urban design firms in the United States. Since its establishment in 1966 the firm has grown from a small group of designers concentrated in housing design to a multi-disciplinary staff of urban designers, planners and architects. The firm has produced master plans for downtown areas, neighborhoods, industrial parks, housing developments, transit stations and colleges. Architectural work has included education facilities, office buildings, industrial buildings, cultural facilities, community centers, transit stations and parking garages, as well as multi-family housing.

In addition to numerous regional and national design awards presented by the American Institute of Architecture, the office has been cited for its work on the Southwest Corridor Project by the Institute for Urban Design and the Mass. Council for the Arts. Several projects have also appeared in professional publications, including Progressive Architecture, Architectural Forum, Architectural Record, Urban Design Magazine, AU (Japan), Baumeister (Germany), L'Industria Belle Construzioni (Italy), and Newsweek.

Since its inception the Stull and Lee office has worked extensively with both public and private clients. A fundamental component of our practice has been a close working relationship with neighborhood groups and public agencies. Our commitment to citizen participation leads to an appreciation of the unique nature of each project area and to design solutions that are generated with communities rather than imposed upon them.

Stull and Lee is a minority owned firm. Its staff is 38% minority and 32% female. We are comfortable working within an inter-disciplinary team structure. The firms design and technical abilities are complemented by our ability to complete projects on schedule. The personnel assigned to this project have the significant experience in their job areas and are capable of meeting the standards of excellence required.

Please Note: Stull and Lee's 1986-87  
recertification letter is  
being delayed due to staff  
shortage. Please contact  
Mr. Arthur Atkins, Certi-  
fication Coordinator at  
SOMBA for verification of  
certification..

Dear Mr. Stull:

The State Office of Minority Business Assistance (SOMBA) is pleased to notify you that your firm was reviewed on 10/04/85 and recertified as a Minority owned business enterprise ( MBE ) under the category of Consulting. The company will be listed in the SOMBA Directory which is published regularly and in the Massachusetts Central Register which is also published at regular intervals.

Additionally, the SOMBA Directory is sent to other state agencies and authorities such as the Massachusetts Port Authority, Turnpike Authority, Department of Public Works, cities and towns and many other public and private organization who seek to fulfill MBE utilization requirements.

Certification is not a fixed designation and SOMBA reserves the right to monitor your company and to conduct periodic reviews of your company's books, contracts, company structure, facilities, job locations, and to withdraw its certification of your firm should this become necessary.

On or before your firm's certification anniversary date of (10/05/86 ), plan to send to us the following documents:

- (1) The latest company financial statement
- (2) The latest U.S. Corporate Tax Return or your U.S. 1040 Schedule C or updated work history
- (3) Corporations submit annual certification of Condition. Sole Proprietor and Partnerships submit a notarized statement indicating whether there has been any change in the firm's legal structure.
